

*Downside Risk Protection with Limited Upside Potential.*

### How it works...

- **Downside Risk Protection with a Guaranteed Floor**
- **Limited Upside Potential**
- **Price bushels incrementally each day at one of three levels:**
  - **Maximum**
  - **Market Close**
  - **Guaranteed Floor (minimum)**
- **No Additional Offer**

### Protect your downside risk, while still maintaining upside potential...

This model prices an even increment of bushels each day for a given pricing period at one of three price levels:

- **Maximum** - if daily close is at or above the maximum price level.
- **Daily Market Close** – if daily close is between Maximum and Guaranteed Floor.
- **Guaranteed Floor (Minimum)** – if daily close is below the Guaranteed Floor.

Crossover Solutions allow producers to diversify the way they manage price risk.

Consider selling in small percentages up to 30% of your APH or your level of coverage for revenue based crop insurance by adding Crossover Solutions to help add discipline and diversity to your marketing plan.

### Futures Months Offered...

- Corn • All Corn Futures Months
- Soybeans • All Soybean Futures Months
- Wheat • All Wheat Futures Months

### Service Fees:

- Varies with market Volatility
- Less applicable basis (relative to participating elevator's policy)

With today's volatile markets, it's hard to make a decision. Protect your downside and keep some upside potential open by utilizing Crossover Solutions.

### Pricing Period(s)...(all are customizable)
